Clean Fire - Diesel Fuel Additive

Endurance Power is now offering Clean Fire fuel additive.

CLEAN FIRE is the premium fuel additive for year round operation.

No need to carry several products to treat your diesel fuel.

CLEAN FIRE is specifically formulated to combat the Ultra Low Sulfur Diesel fuels lack of lubricity. It also contains an anti-gel package for winter protection.

CLEAN FIRE has one of the strongest treat ratios in the industry:
1-oz. to 12-gallons.

This means one quart treats 375 gallons of diesel.

Field tests have proven fuel economy improvement alone exceeds the cost of CLEAN FIRE. Next time you fill up add the power & performance of CLEAN FIRE.

Clean Fire is a highly concentrated multifunctional fuel additive:

Cetane Package:

- Boost Cetane up to 6 numbers - engines start easier & faster
- Increase power
- Improve fuel economy
- Smoother running engine (no more "diesel knock")
- More complete fuel combustion
- Reduce emissions and black exhaust smoke

Anti-Gel Package

- Strong Anti-gel for winter protection
- Reduce Cold-Filter Plugging Point by 15° F with single dose

Lubrication Package

- Lubricates fuel delivery system (pump, injectors, top piston ring)
- Reduces wear caused by Ultra Low Sulfur Diesel (ULSD)

Detergent Package

- Cleans injectors & valves
- Cleans tanks & fuel lines

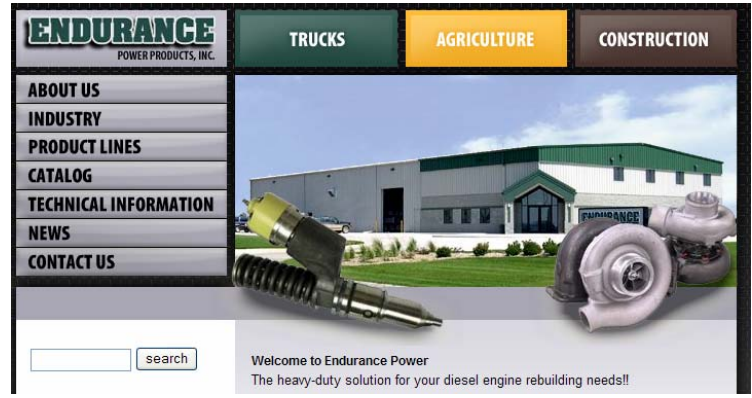

Stabilizer Package

- Disperse water to 1 micron (safe size for all engines)
- Controls Algae
- Extend fuel storage life

HYPER-FORMANCE

Overhaul Kits for John Deere® Engines

Endurance Power always sells **THE COMPLETE** Reliance Hyper-formance Overhaul Kit.
 Your kit will contain all Reliance parts, every time!

New technology for older engines

Hyper-formance Overhaul Kits offer design features found in the latest, most modern engines. They are exclusively from Reliance, and are available for the full range of John Deere 400 Series engines.

Now you can enjoy the advantages of the most current technology for your older engines. This means better starting, better performance and enhanced engine life. Hyper-formance Overhaul Kits include compression enhanced hypereutectic pistons for long life and improved engine starting.

When specifying the kit for your next 400 Series overhaul, consider your option of a Hyper-formance kit. Consider the features that contribute to long life and improved performance. Also, consider the 3-year, 5,000-hour warranty*, and your best option is a Hyper-formance Overhaul Kit.

(*Warranty: coverage against defects in material and workmanship for three years or 5000 hours, whichever occurs first. First 2 years cover parts and labor, 3rd year is parts replacement only.)
